

# Phase-End Project

## Event Management App

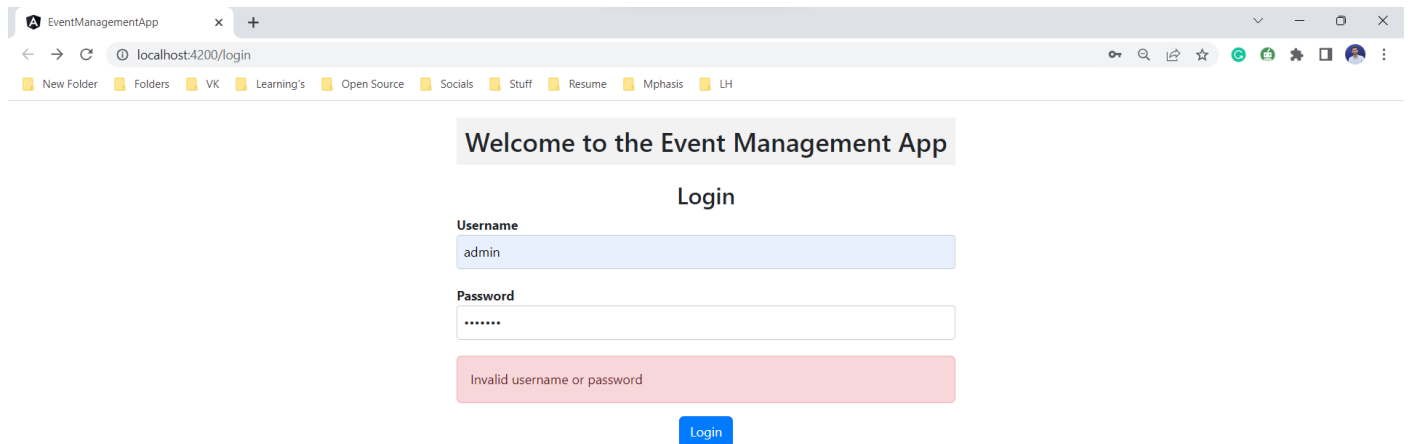

- **Output**

- ✓ **Login Page**

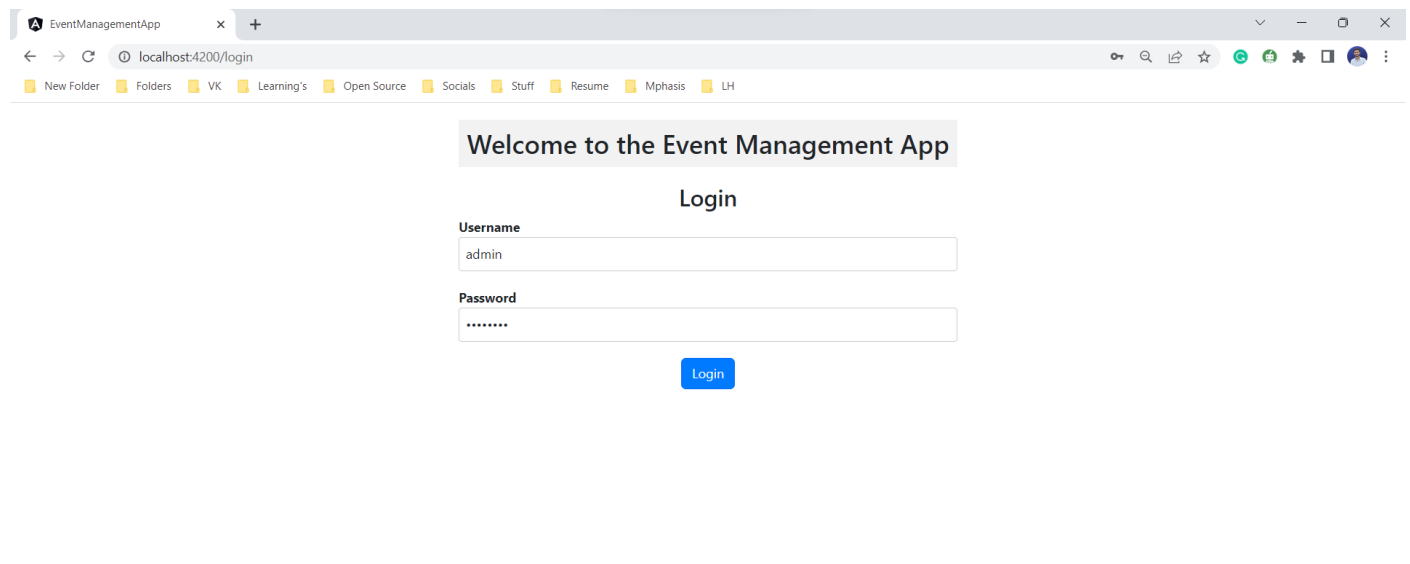

The screenshot shows a web browser window with the title 'EventManagerApp'. The address bar displays 'localhost:4200/login'. The page content includes a header 'Welcome to the Event Management App', a sub-header 'Login', and two input fields labeled 'Username' and 'Password'. A blue 'Login' button is positioned below the password field. The browser's file explorer bar at the top shows a list of folders: 'New Folder', 'Folders', 'VK', 'Learning's', 'Open Source', 'Socials', 'Stuff', 'Resume', 'Mphasis', and 'LH'.

- ✓ **Validating the Login Details**

This screenshot shows the same login page as the previous one, but with the 'Username' field populated with the text 'admin'. The 'Password' field contains a series of dots. A red error message box at the bottom of the form area displays the text 'Invalid username or password'. The blue 'Login' button remains visible below the error message. The browser window and file explorer bar are consistent with the previous screenshot.

## ✓ Admin Enter Login Details Correctly

EventManagementApp

localhost:4200/login
